

MAZDA CX-80

UNFOLDING A LIFE FULL OF POSSIBILITIES.

A breathtaking example of Japanese craftsmanship, the all-new Mazda CX-80 is an elegant three-row SUV offering seating for up to seven passengers.

Spacious and versatile, every element is carefully crafted for everything your life has to offer. In Japan, empty space is seen as a canvas.

A space you can fill with family and adventure.

FOR FAMILY DISCOVERIES

CRAFTED WITH PURPOSE, DESIGNED FOR LIFE.

Illuminate every road ahead with precision. The Mazda CX-80's signature LED headlamps combine sleek aesthetics with advanced lighting performance, giving you confidence and clarity, day or night.

The sculpted side sill detailing adds a bold finishing touch to the Mazda CX-80's commanding stance. It's a subtle yet powerful design element that reflects Mazda's commitment to refined aesthetics — where every curve, line, and edge serves both form and function.

Elegantly designed 20" alloy wheels don't just turn heads—they ensure a composed, confident ride. From urban roads to scenic highways, the Mazda CX-80 offers a harmonious blend of style and driving stability.

Embark on every journey with purpose in the all-new 6-seat Mazda CX-80 Plug-in Hybrid. Thoughtfully crafted to embrace the demands of modern family life, its spacious interior and intuitive technology keep everyone connected and comfortable. With every turn, the CX-80 transforms everyday drives into unforgettable experiences—powered by efficient PHEV performance and Mazda's signature design philosophy.

PREMIUM SPACE AND COMFORT ABOVE ALL

THOUGHTFUL COMFORT. SEAMLESS CONNECTION.

Let light and space fill the cabin. The panoramic sunroof brings a heightened sense of openness, inviting everyone on board to share in the beauty of the journey — whether it's a family road trip or a drive through the city.

The elegant centre console is designed with intention — placing essential controls within natural reach. Premium materials and meticulous detailing elevate your sense of control.

Stay effortlessly in sync with Mazda's advanced infotainment interface. From navigation to entertainment, every feature is easily accessible via the 12.3" widescreen central display — keeping you connected, informed, and in command throughout your journey.

The Mazda CX-80 is designed to bring comfort, versatility, and sustainability together in perfect harmony. With three rows of well-spaced seating for six, including luxurious second-row captain seats — every family journey feels first-class. Whether it's the weekly grocery run or a getaway with luggage in tow, the generous cargo space ensures you can bring everything you need.

COMFORT FOR EVERYONE

Step into a cabin where craftsmanship meets comfort. From the meticulously finished dashboard to the indulgent second-row captain seats, every detail in the Mazda CX-80 is designed to elevate the family journey. Rear passengers enjoy first-class convenience with individual armrests, dedicated climate control, USB-C charging ports, and thoughtful touches that make long drives feel effortless. Whether you're in the front or the third row, comfort and connection come standard. This is Mazda's take on space redefined — elegant, intelligent, and tailored to every seat.

DRIVE YOUR WAY

POWER MORE POSSIBILITIES.

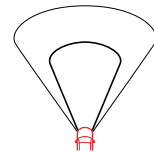

The e-SKYACTIV PHEV system in the Mazda CX-80 combines a tuned 2.5L petrol engine with an electric motor and battery to deliver strong, responsive performance and impressive efficiency. Its smooth 8-speed automatic transmission ensures seamless gear changes, while electric-only driving is possible in everyday conditions. When extra power is needed, the petrol engine supports for added torque — offering an engaging, fuel-efficient drive that adapts to your needs.

The newly developed 8-speed automatic transmission delivers precise, responsive gear shifts for a more connected driving feel. Designed without a traditional torque converter, it uses a multi-plate clutch to enhance performance, fuel efficiency, and smoothness, all while keeping you in perfect control.

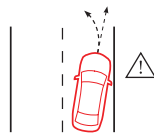

i-ACTIVSENSE*

Adaptive LED Headlights (ALH)

ALH increases visibility at night to help drivers stay vigilant by combining 3 technologies : Glare-free High Beam, Wide-range Low Beams and Highway Mode.

Lane-Keep Assist System (LAS)

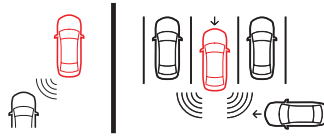

LAS adds to the Lane Departure Warning System by performing minor steering corrections to re-center the vehicle in its lane upon sensing an unintentional lane departure.

Smart Brake Support (SBS) Front & Rear

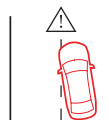

SBS aims to help the driver avoid or reduce the severity of frontal collisions (between 15 - 145 km/h), by automatically applying the brakes if there is a danger of collision.

Blind Spot Monitoring (BSM) Rear Cross Traffic Alert (RCTA)

BSM alert drivers of the presence of vehicles approaching from behind and in the adjacent lane on either side by displaying an icon in the appropriate door mirror. RCTA alerts the driver when it detects vehicles approaching from either side during reversing operations.

Lane Departure Warning System (LDWS)

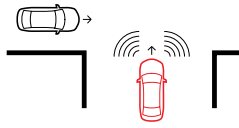

LDWS automatically senses lane markings on the road and alerts the driver when it predicts the vehicle is going to unintentionally depart from its lane.

Mazda Radar Cruise Control (MRCC)

MRCC maintains a set speed and minimum following distance from the car in front. If the car you are following reduces speed, your vehicle will automatically slow down as needed.

Front Cross Traffic Alert (FCTA)

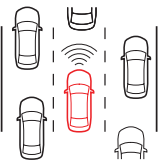

The FCTA detects vehicles approaching from the blind spots on the front left and right sides of the vehicle when the vehicle starts to drive at an intersection.

Driver Attention Alert (DAA) with Driver Monitoring

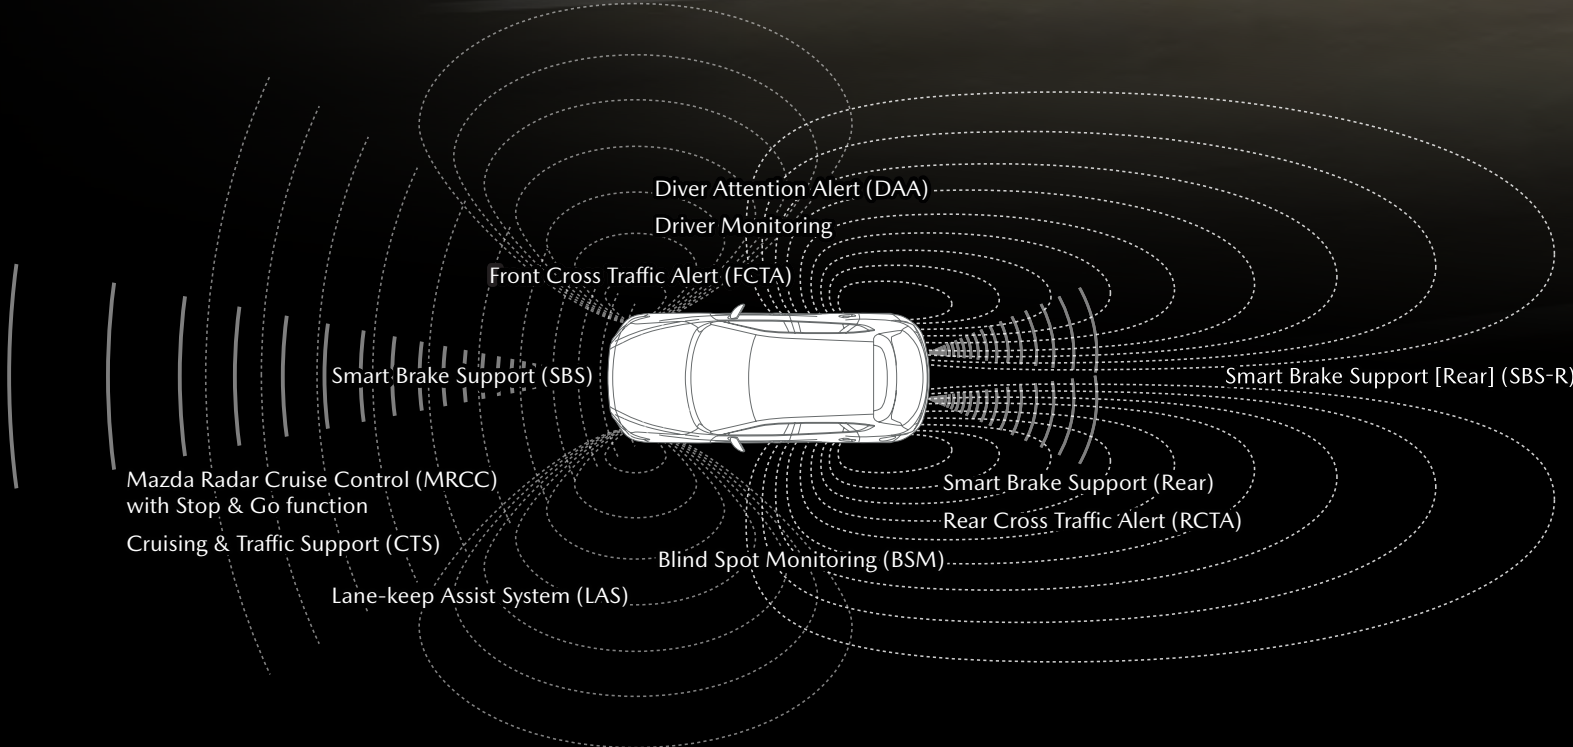

DAA detects driver fatigue and decreased attentiveness and encourages the driver to take a rest (activates above 65 km/h). Driver Monitoring detects changes in the driver's facial features using a camera, and encourages the driver to take a rest (activates above 5 km/h).

Cruising & Traffic Support (CTS)

CTS assists to maintain a constant distance between your vehicle and a vehicle ahead at a preset vehicle speed without you having to use the accelerator or brake pedal. It also assists the driver to keep steer the vehicle within the lane lines.

True driving pleasure comes from confidence behind the wheel. Guided by Mazda's human-centred design, Proactive Safety and i-Activsense technologies work seamlessly to support your awareness, help avoid danger before it arises, and provide assistance when needed — so you always feel safe, secure, and in control.

* Available on selected models only. These systems are not a replacement for safe and attentive driving. Please drive carefully at all times and do not rely on technology to prevent an accident.
